

## St. Simeon Well

A nontributary Upper Arapahoe aquifer well was completed to serve as the principal water supply for the St. Simeon Cemetery in unincorporated Arapahoe County. The St. Simeon Cemetery Association and the Archdiocese of Denver (Archdiocese) hired WWE to design the well, help obtain the necessary permitting from the Office of the State Engineer (SEO) and provide services during construction. WWE prepared all documentation including well specifications, bid documents, award documents, permit application, geophysical logs and the State Division of Water Resources Well Completion Report. WWE also managed and interpreted the well pumping tests. Later, WWE provided specifications for the pump and controls.
